

Competency 2.1: Basics

This is a step-by-step guide for teachers logging into Tools™. Follow each instruction carefully to ensure a smooth login process. Let's get started!

Code Citations

Code Citations [1] provide ISO9001-verified references to the original source documents.

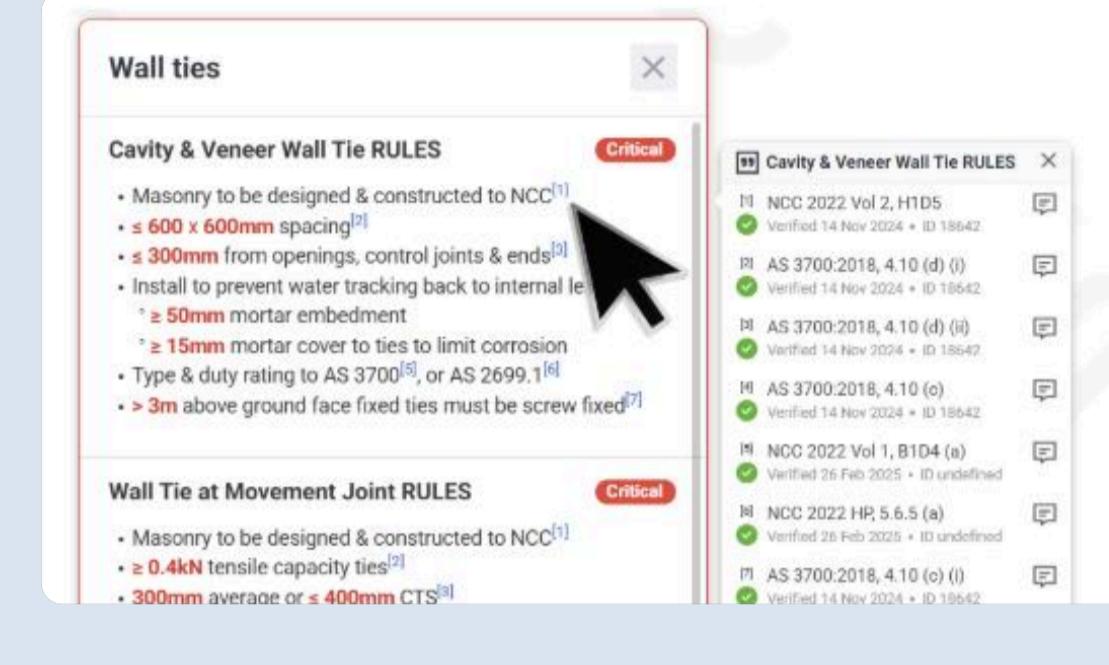

There are 3 different ways to display citations:

Label

Hotspot

Side-Panel

Try it Now: The app's **Citations** feature for finding building codes on a label, hotspot and side-panel.

How To Read Tools

Code Compliance

Red text indicates Compliance requirements. Follow it to meet the Codes and manufacturer rules. No exceptions!

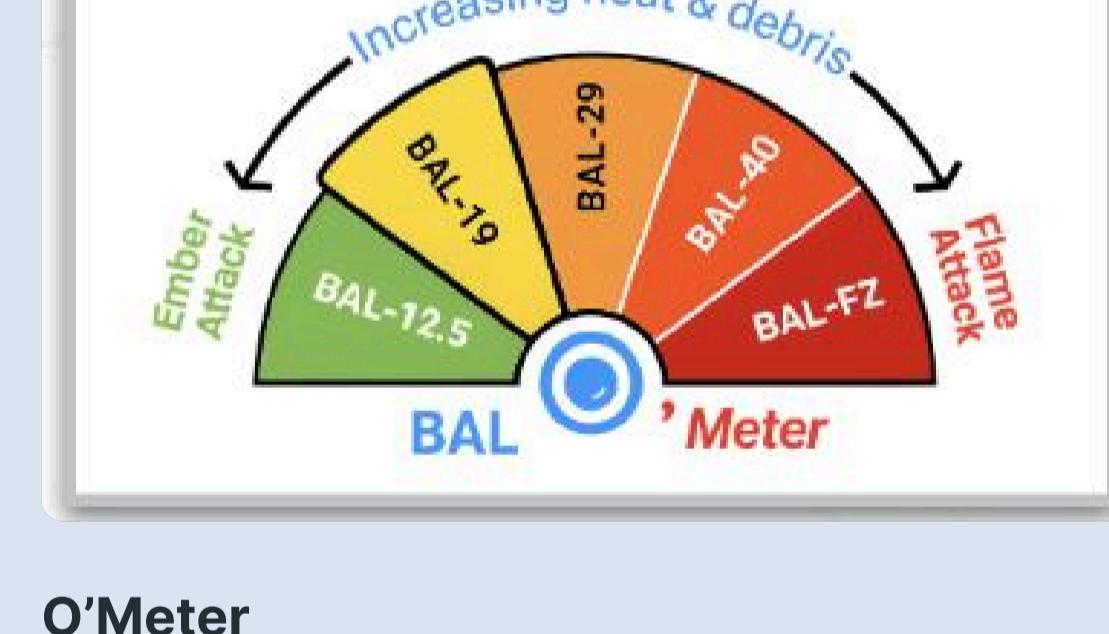

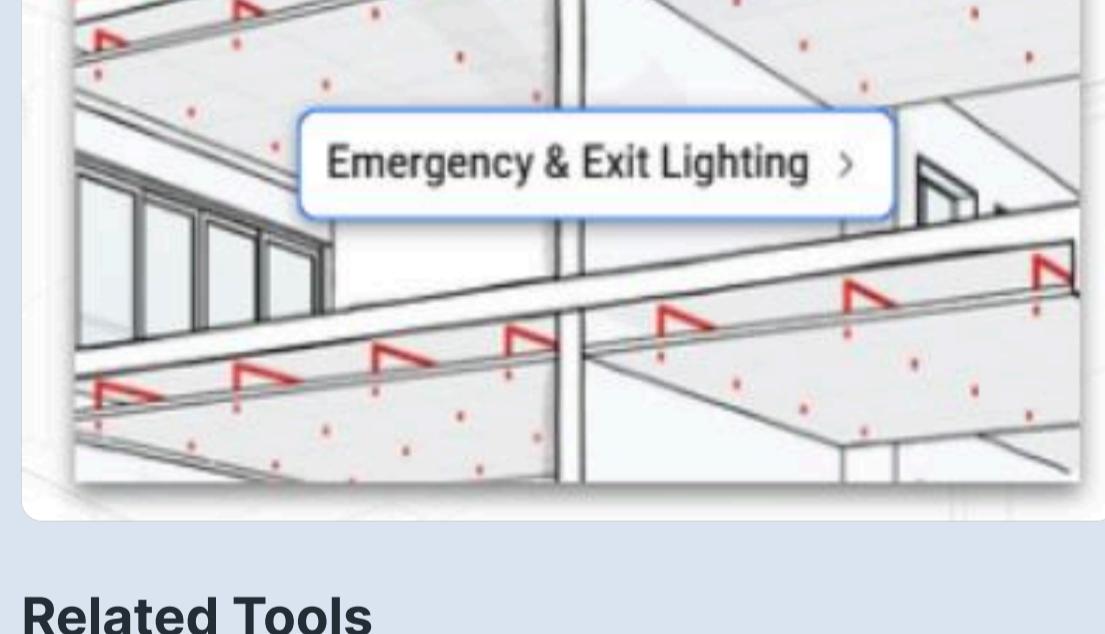

Code Citations^[1]

All code is cited back to the original source. Click Citations (superscripts) to display, and click codes to copy to the clipboard.

Best Practices

Blue means Best Practice. You've got it right with the Compliance, so take it to the next level with Best Practice.

Related Tools

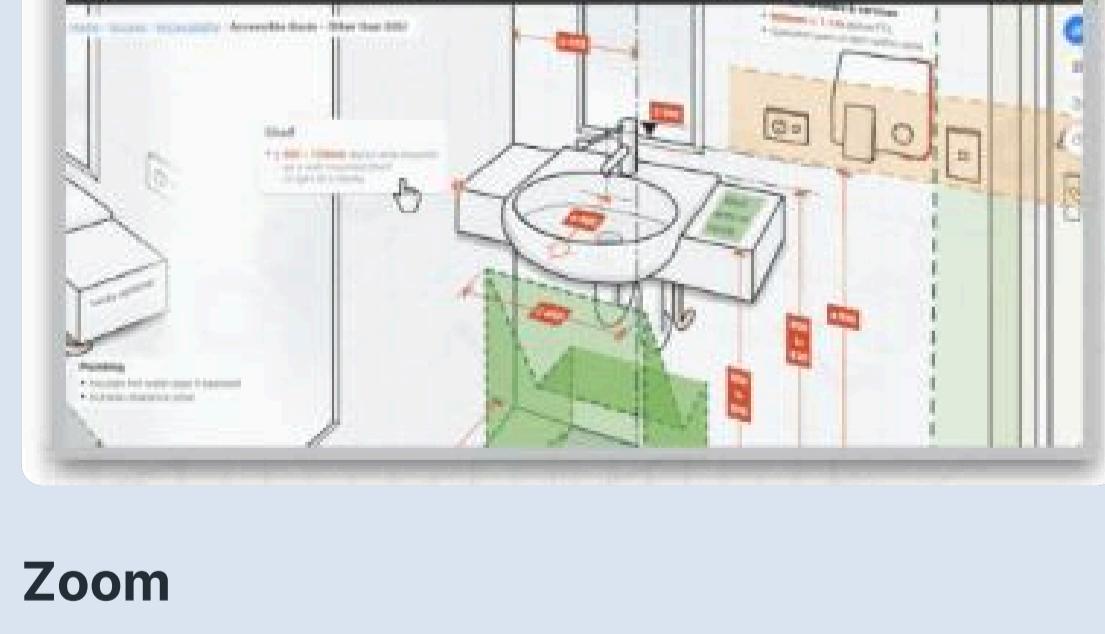

Helps you 'integrate' knowledge between different Tools™.

Informative

Grey means Informative. We provide key, clear details to keep you informed, including important manufacturer information.

O'Meter

O'Meters allow you to quickly change compliance settings to suit your needs, and the Tool, along with relevant content, will automatically update.

Building Class	R Riser (mm)	G Going (mm)	2xR + G Comfort (mm)
1 to 4 Private	115 to 190	240 to 355	550 to 700
2 to 9 Public		250 to 355	
1 & 10 Infrequent	130 to 225	215 to 355	540 to 700
Comfortable	160 to 180	280 to 320	
Equal size Risers & Going in each Flight			
• ±5 adjacent Tread			
• ±10 overall Flight			

Zoom

Use the zoom feature to focus and uncover detailed information.

Class

Much of construction is not Class-specific. Where Class applies, we will clearly show it.

Competency 2 Achieved: You understand the basics
