Competency 3.2: QRs And PDFs

This is a step-by-step guide for teachers logging into Tools™. Follow each instruction carefully to ensure a smooth login process. Let's get started!
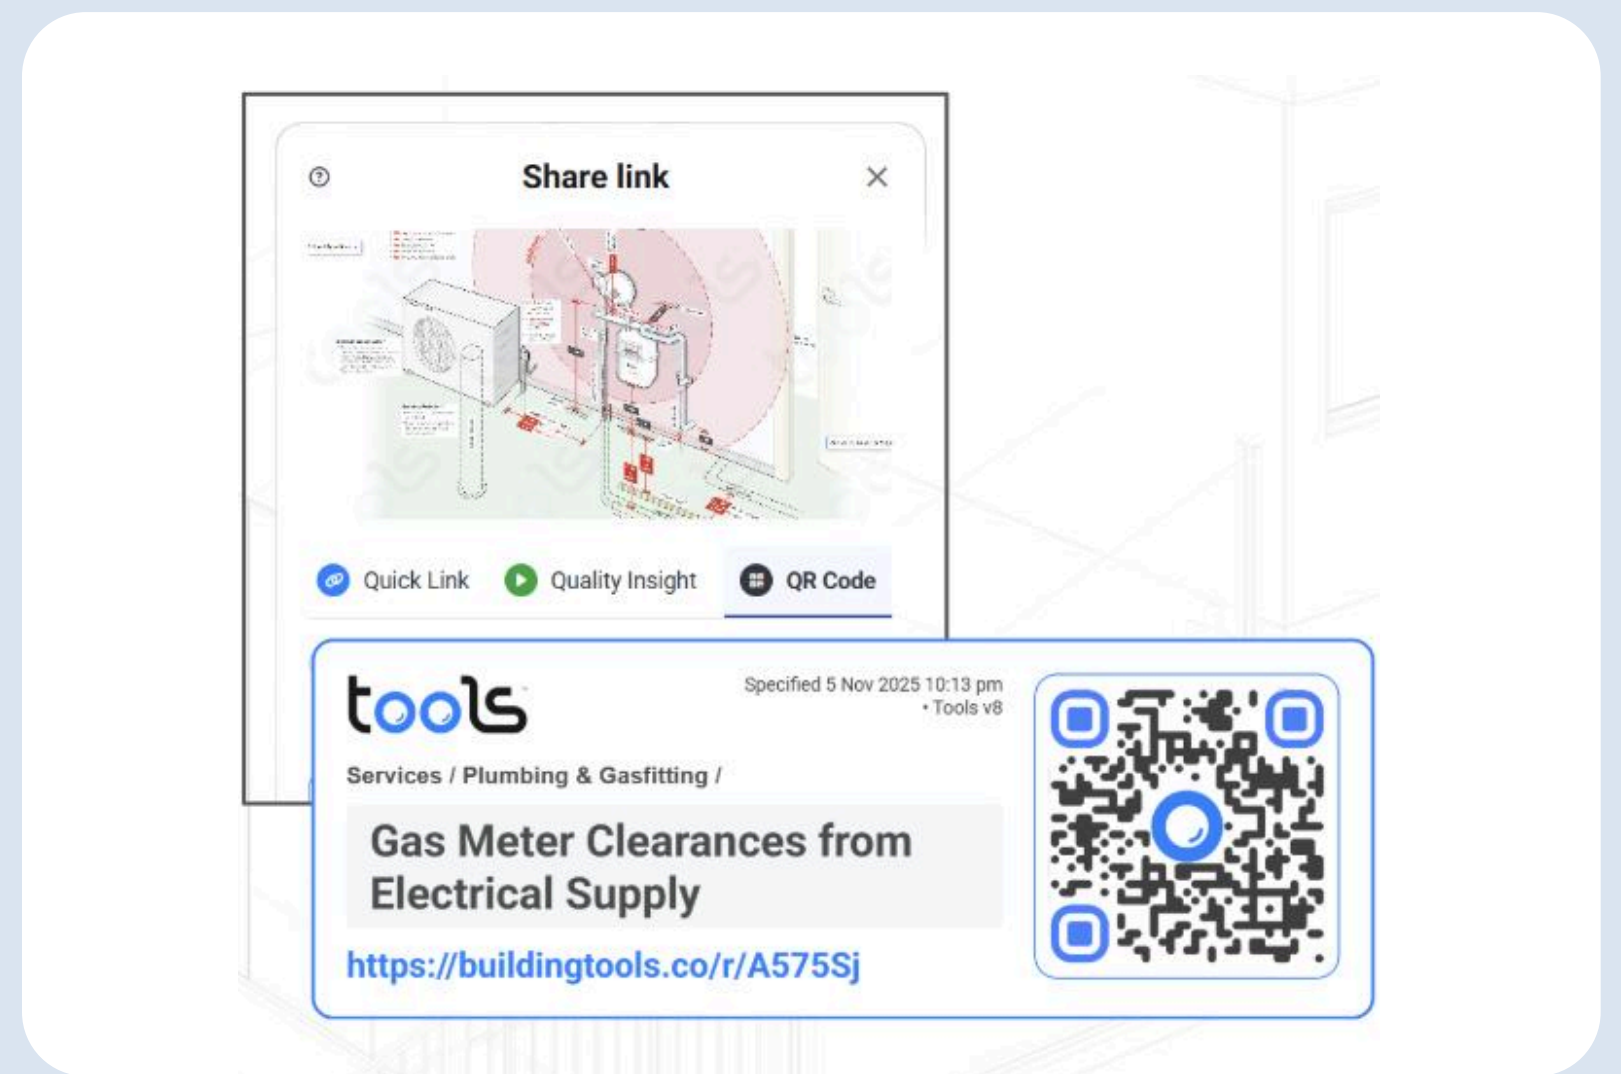

QRs And PDFs

1. A QR is a Share:

Set your view, and using the same share button generate a QR Code.

✓ Optionally add a custom title.

✓ QRs can be dropped into a document, lesson plan or assignment.

✓ Make sure you hyperlink the image.

Try It Now:
Generate a QR now onscreen, and scan using your phone to see how easy it is to share.

2. A PDF is a Share:

It's a great way to include Tools in printed handouts, a poster on a wall or sharing digitally.

✓ PDFs take 1-2 mins to generate and you can keep working while it generates in the background.

✓ A PDF document is linked to the Tool, and contains a QR code.

Try It Now:
Generate a PDF now, and save to your device.
