Competency 3.1: Share Links

This is a step-by-step guide for teachers logging into Tools™. Follow each instruction carefully to ensure a smooth login process. Let's get started!

Share Links

1. Teachers have PRO by default

2. A Share Link can be generated on any Tool by a registered user.

3. Shares can be opened by anyone.

Smart Tip:

Set your view before generating a share link. The recipient will see the same view, (including side panels and O'meter settings - if relevant.

Try It Now:

Focus your audience by adding share links to documents, lessons, assignments, live chat etc..

Find the **Bushfire Tool**, set **BAL to Flame Zone**, Zoom into a detail and **generate a sharelink** and share it now.
